## SUMMARY

---

Passionate about pushing the boundaries of web and mobile development, I am a versatile Full-Stack and Mobile Developer with a flair for creating innovative applications that captivate users. Specializing in the MERN stack, JavaScript, HTML, and CSS, I thrive on transforming complex ideas into intuitive and visually stunning interfaces, ensuring unmatched user engagement and satisfaction.

## EXPERIENCE

---

### Trainee at Orange Academy Boot-camp

Feb 2023 – Sep 2023

Orange Coding Academy, Amman

- **Full-Stack** : handling both front-end and back-end aspects, allowing to create complete web applications from start to finish.
- **Front-end Development**: build interface of a web application using HTML, CSS, and JavaScript to ensure a user-friendly and interactive experience.
- **Back-end Development**: work on the server-side of the application, managing data, business logic, and handling user requests to ensure smooth functionality.
- **Database Management**: manage databases to store and retrieve data efficiently, ensuring data integrity and security in the application.

### Business Developer

Aug 2020 - Jan 2023

Existence International Center, Irbid /Amman

- **Strategic planning and business development**: Developing long-term strategies and initiatives to foster business growth and expansion.
- **Market research and analysis**: Conducting in-depth research to understand market trends and consumer behavior, aiding in informed .
- **Data analysis and reporting**: Analyzing data to derive valuable insights and generating comprehensive reports to support data-driven decision-making.
- **Client relationship management**: Building and maintaining strong relationships with clients to ensure their satisfaction.

### Salesman

Feb 2017 - Jul 2020

Orange Company, Amman

- **Understanding customer needs and providing solutions**: Identifying clients' requirements and offering customized solutions to meet their specific needs.
- **Negotiating terms and closing sales deals**: Engaging in effective negotiations with clients and successfully finalizing sales agreements to secure profitable deals.
- **Maintaining relationships with clients**: Establishing strong connections with clients and ensuring ongoing communication and support.
- **Achieving sales targets**: Consistently meeting sales goals and objectives to contribute to the company overall success.

## PROJECTS

---

### Chatbot

- Developed a chat-bot application using Express, Node.js, and React.
- Integrated the ChatGPT API to enable natural language understanding and generation, allowing the chat-bot to engage in realistic and dynamic conversations with users.

### Training Center

- Developed a comprehensive training center web application that featured a secure login and signup page using HTML, CSS, Bootstrap, and JavaScript.
- Created a dynamic and interactive learning environment by integrating test exams and course modules into the web application. Utilized JavaScript to manage the local storage.

### Tourist site

- Developed a visually appealing Tourist site web application using React, where users could search for and view information about various tourist sites.
- Implemented a robust search functionality using React and the JSON file as a data source, allowing users to search for tourist sites based on specific criteria such as location, category, or ratings.
